

SAFESOL GumDrops Pet Mouth Hygiene Additive

What: SAFESOL GumDrops

Where: Add Gum Drops to your pet drinking water

When: Use when ever you are topping up your pet's water

Why: GumDrops will help improve your pet's dental hygiene. The anti-bacterial formula will prevent bad breath and poor gum health.

How:

Add 20ml of Gum Drops to 1 litre of tap water.

Step 1) Invert the GumDrops concentrate bottle.

Step 2) Revert the GumDrops concentrate bottle.

Step 3) Open and pour the GumDrops concentrate into a litre of water.

Step 4) Add to your pet's drinking water.
