

Huwa-San Multipurpose Pets

Huwa-San Multipurpose disinfection Pets is a ready-to-use disinfectant based on hydrogen peroxide for disinfecting all kinds of pet supplies; such as cages, benches, litter boxes, animal toys, eating- and drinking bowl,

Users: Household, pet stores, veterinary, grooming salons, ...

Advantages:

- Completely colourless, odourless and tasteless
- Very effectively, kills 99,999% of bacteria and fungi
- Not toxic and forms no harmful by-products
- Biodegradable
- No skin irritation
- Free of chlorine and alcohol
- Safe when used with food

Instructions for use: First thoroughly clean the surfaces which need to be disinfected. Rinse the used detergent with clean water. Remove the excess water. Spray the surface with undiluted solution Huwa-San Pets so that the surfaces remain moist during the operating time of 5 minutes. Rinsing is only necessary in case the surfaces come into contact with food. Dry with a clean cloth.

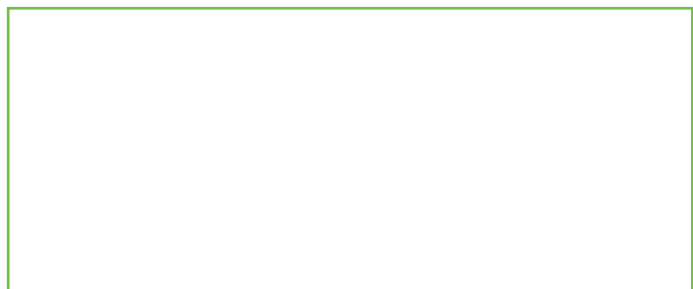

General information: Packaging: spray bottle of 500ml
Application number: 3116B
Type of product: bactericide, fungicide
Shelf life: 2 years
