

3% Hydrogen Peroxide

Dental Hygiene Applications

What: SAFESOL 3% HYDROGEN PEROXIDE

Background

Hydrogen peroxide is a great disinfectant, that is inexpensive and safe for the environment. It releases oxygen in a burst, killing bacteria in the process. It can fight gingivitis and gum related problems. It helps prevent the build up of bacteria and plaque, improving dental health, when used as a mouth wash.

Mouth Wash

Use 3% hydrogen peroxide mixed with 2 parts water to gargle with for whiter and cleaner teeth. To flavor your mouth wash, add peppermint oil. Gargle for 1-2 minutes.

Cure Sore Gums

Use 3% hydrogen peroxide mixed with 1 part water to rinse your gums. This kills the bacteria that causes gum pain.

Toothpaste

Mix baking soda with sufficient 3% hydrogen peroxide to make a paste
